

Police Report

Council Meeting

February 15, 2023

01: Cruiser Update: Finally got word that our cruiser we ordered in February of 2022 does exist. We received a call from Tim Lalley Chevrolet last week that we can expect the Tahoe we ordered a year ago at the end of March or beginning April. We have contacted Parr Emergency Equipment and let them know we need to get parts ordered in for the cruiser to be upfitted around mid to late April.

02: Personnel Board Of Review/Appeals: We had a meeting on February 14, 2023 with our city attorney Dave Brehm and labor attorney Ben Albrecht. Also, in attendance was Steve Pyles, Daryl Hennessy, Shawn Wade and myself. We discussed the roles of the personnel board of appeals and determined that the board of appeals and board of review is the same board. We are working as a group to determine what rules we need to establish for the board or council to adopt and be used by the board in moving forward to help with the hiring process as well as certain discipline issues. **(Maybe Dave Brehm could explain more in depth if needed)**

03: Computers from GeTac: We have had 2 computers go down in our cruisers the last couple weeks. Tony with Edge and Officer Alexander have worked together to replace hard drives and patch these to work for now. Tony stated that these tablets need replaced as they are outdated (6 and 7 years old). We have funds budgeted for 2 new computers in our cruiser funds as part of the upfitting. We need to order 3 **(2 new cars and 1 replacement)** of these tablets as they take 2 to 3 months to get in. The cost will be around \$9,000.00 for the order but as I stated \$6,000.00 of that is already budgeted with the additional \$3,000.00 replacement was not planned for.

04: Thefts at new build sites: Please be aware that we are taking several reports of thefts from the new homes being built in several different areas. These thefts are happening all around the county and most I would guess are during the day. If anyone is driving through these areas and you see something that looks out of place or suspicious please call and report it. The direct number to call to report suspicious activity is 740-833-2800 this number will get you straight to a Delaware County Sheriff's Office dispatcher.

Calls for service (January) were reported at the last meeting.
