

Police Report

Council Meeting

June 07, 2023

01: Drone: The drone has arrived, and we have selected our 4 pilot candidates. The potential pilots are Officers Belcher, Ebright, Ramirez, and Alexander. The training software has been ordered with unlimited users for the city of Sunbury it was less than \$200. We are working on the policy and training for the program. The cost for the testing is \$150 per test per officer and it is pass or fail. The program is under development, and we look at giving the Officers 3 months to obtain their 107 licenses to broadly start utilizing the equipment.

Thank every one of you for the support you have given to this program as it is a much-needed tool.

02: Tahoe Damage cruiser #94: We had an arrest out of a domestic situation within the city. While transporting the suspect to the Delaware County Jail he became combative and began trying to kick his way out of the rear seat of the cruiser. The suspect broke the bars covering the rear door windows as well as sprung the doors where there is now approximately a 1-inch gap at the top of both rear doors. The center divider was kicked loose and both gun racks were knocked loose as well. Our new in car camera was kicked bending the brackets and exposing the wiring to the camera.

In all the suspect caused roughly \$8,500.00 in damage that the courts will impose restitution upon being found guilty of the felony vandalism to the city property. Attached are the estimates for the repairs.

03: ESchedule: The scheduling model is built and is now being coded to communicate with our CMI program that we currently use for the city. We hope to be able to start using this new system by the pay period starting June 19th.

04: Cradle Point: The Police Department has contacted First Net and are in the process of outfitting our cars with equipment that allows us to see the telematics of each cruiser we have in service. This information will allow us to check the driving patterns of each vehicle and give us the information needed to correct any driving habits that are causing us maintenance issues that are not considered routine. This will help us better manage our fleet.

05: Morrow County Freedom Fest: I was contacted by Lt. Newsome with the Morrow County Sheriffs Office requesting assistance with Freedom Fest at the Morrow County Fairgrounds. Lt. Newsome has asked if we could assist them under our mutual aid agreement to work special duty as well as utilize our UTV to help patrol the grounds and respond to

emergencies where cruisers can't go within the fairgrounds. The UTV would be operated by Sunbury Officers only who would be working at the event.

06: Memorial Day Parade: The parade went well this year as usual. The Officers stated they enjoyed the ceremony, and the parade went off without any issues. We would like to thank everyone involved with the Memorial Day events in honoring our veterans past and present.
